INJURIES FATAL TO BIG 4 ENGINEER

Edward Griswald of Wabash Dies at Home of Ed Wolter Monday Night, 12 Days After Accident

SCALDED IN RAIL COLLISION

Body Returned to Late Home on Special Train—Every Comfort Provided for Injured Man.

Edward Griswald, Big Four engineer, whose condition was hopeful up until late Sunday night, expired last evening about five thirty as the result of injuries sustained in a train wreck here on Wednesday afternoon, June 18, when his engine collided with a C. I. & W. engine at the intersection of the tracks.

Engineer Griswald was taken to the home of Ed Wolter, 630 West Third street, because of the crowded condition of the Sexton hospital, and he was given medical attention by specialists at the Wolter home.

His condition was very hopeful and he was improving slowly day by day, and the attending physician on Sunday afternoon spoke very encouragingly of his recovery, but a sudden change took place in the night, and all hope was abandoned yesterday. Relatives from various places were called. Mrs. Griswald has been here since the accident, having come to Rushville in an automobile from her home in Wabash.

The fireman on the engine of which Mr. Griswald was in charge, was also hurt, it will be remembered, but he is now on the road to recovery. The fireman was C. E. Kramer of Anderson.

Railroad brotherhood representatives have been constantly here and did much for the comfort of their deceased member. The Big Four railroad considered their employee as one of the best as he has been an engineer and railroader with them for a long time and showed their respects by issuing orders to all trainmen to be as quiet as possible with their trains while in the neighborhood of the injured man, even engines softened their whistles while approaching the house.

The deceased was a man of 45 years, and is survived by the widow and a son and daughter. The body was taken to their home in Wabash about ten-thirty last night on a special train sent here for that purpose.

EIGHT KILLED AND 15 HURT IN WRECK

New York Central Passenger Ploughs Into Rear End of Another Passenger at Dunkirk, N. Y.

SOME OF INJURED MAY DIE

(By United Press.)

Dunkirk, New York, July 1.—Eight persons were killed and fifteen were injured early today in a rear end collision of two New York Central passenger trains in the Dunkirk station.

It was feared that some of the injured were fatally hurt.

Train No. 41 was standing in the Dunkirk station where it had been delayed by a hot-box.

A flagman endeavored to stop train No. 7 which was following. The airbrake on the second train apparently failed to hold. The flagman hurled a lantern at the engine cab as the locomotive went by, but No. 7 ploughed into the rear coach of the standing train and immediately the boiler of the engine exploded.

LOCAL BANK BUYS ISSUE

Gabe Hildredth Road Bonds Sold Subject to State Board's Approval

A bond issue of \$9,760 to build the Gabe Hildredth road in Richland township was sold by the county treasurer, Charles A. Frazee, yesterday afternoon for par and accrued interest, to the Rushville National bank, subject to the approval of the state board of tax commissioners, which has to pass on every road bond issue before it is legal. The road bond market has been slow for the last several months and as a result no bids have been ordered on some issues. Others were sold by interested persons making up the difference between the market and par.

DECISION MAY LEGALIZE BEER

Judge John C. Rose of District Court Rules in Favor of Brewers in Test Case.

PALMER STATES POSITION

Says Dealers Who Continue to Sell Beer Will be in Danger of Arrest and Prosecution.

(By United Press.)

Baltimore, July 1.—Judge John C. Rose of the United States district court this afternoon sustained the demurrer of the Standard Brewing Company of this city to the indictment of the United States government in the manufacture of the 23 per cent beer.

The decision may mean continuance of the sale of 23 per cent beer as Attorney General Palmer stated that it would rest on the Baltimore case.

Washington, July 1.—Lax enforcement of war time prohibition will mean the hasty enactment of strict enforcement legislation, prohibition leaders in congress today declared.

The dries, headed by Chairman Volstead of the judiciary committee, will press the enforcement bill early next week, asking for a special rule so that it may be considered.

"The apparent confusion over enforcement of the war-time prohibition bill shows the need of more legislation," Volstead said, "and with dry majority in congress, I am sure this can be readily approved."

"Dealers who continue to sell beer are in danger of arrest and prosecution," Attorney General Palmer declared today.

Explaining the official statement of the course to be followed by the department of justice in enforcing war-time prohibition, which leaked out, as to whether dealers in 23 per cent beer would be prosecuted, Palmer said: "I have not claimed amnesty would be granted or authorized sale of this beer."

"My contentions are that beer consumption is a social evil."

ORDERS A SPECIAL VENIRE

Judge Sparks Prepares For Trial of Haags in Indianapolis July 14

While in Indianapolis yesterday afternoon, Judge Will M. Sparks, who some time ago was selected as special judge for the case of Louis E. and Julius A. Haag, Indianapolis druggists accused of operating a blind tiger, ordered 1,800 gallons of whiskey confiscated in raids on the Haag stores, transferred from the possession of George V. Coffin, Indianapolis chief of police, to Robert F. Miller, Marion county sheriff. Judge Sparks also ordered a special venire of sixty men from which to select a jury. The trial will start July 14.

CORPORATIONS ARE NEW PHONES FOR BEING APPRAISED GLENWOOD ARRIVE

J. Monroe Fitch, Representing State Board, is Sitting With County Board of Review They Are of a Later Design Than Those in Use Either in Rushville or Indianapolis.

NEW RULINGS RECEIVED HERE

Commissioners Hold Rushville Township Assessor Must Notify City Taxpayers of Changes

The county board of review began the appraisal of the real estate and improvements and personal property of Rush county corporations today. J. Monroe Fitch of Muncie, representative of the state board of tax commissioners, is sitting with the board, giving advice in the work and interpreting the new state tax law wherever necessary. The reviewers had to postpone the work of reassessing the real estate and improvements in Rushville city, on which they have been engaged most of the time since the session began Monday, June 2. It will be resumed as soon as the task now before the board is completed. When here the last time, Mr. Fitch told the board that he would be back July 1 to appraise the corporations.

The board's session will end sooner than expected because of a ruling of the state board of tax commissioners received by Earl Priest, county assessor, to the effect that Sundays should be counted as working days in the thirty-eight days allowed by the new law for review boards in counties with a population less than 20,000, in years when real estate is assessed. In years when real estate is not assessed, the board's session is twenty-eight days under the new law.

Under the old law Sundays did not count in the number of days the board was to sit, but then the session was only for twenty days in off years and thirty days in real estate years. In the long run, the board's session under the new law is not much longer than formerly. The board is up against another proposition. Members are undecided whether the Fourth of July should be a day of no business.

Many people when shown the new phones wanted one installed in Rushville, but they are not adapted to the switchboard here and it will be useless to try to get one.

The switchboard for the Glenwood exchange will be installed within 15 or 20 days, and it is probable that the system will be completely installed not later than the middle of September.

BOUGHT FOR \$1.25 AND SOLD FOR \$225 AN ACRE

Part of Land Purchased by John C. Blackledge's Grandfather From Government in 1823

346 ACRES AVERAGE \$250

John C. Blackledge has sold the remainder of his Rush county farm, of 186 acres to Sylvester Kirkpatrick. The land which he has just sold is part of the original old Blackledge homestead, northeast of Rushville, and by selling this farm, Mr. Blackledge disposes of his interest in Rush county land.

Last week Mr. Blackledge sold 160 acres of his farm to David I. Harlan of Beesons Station, and also sold his residence in North Main street to him. In selling the land Mr. Blackledge reserves this year's crop and estimates that the wheat crop alone will bring the sale up to \$250 per acre.

This land was settled in 1823 by Mr. Blackledge's grandfather, he having purchased it from the government at \$1.25 per acre. The grandfather died in 1876, and the small log cabin in which he lived was still standing, up until about ten years ago.

Having sold the 346 acres, Mr. Blackledge expects to remain here until the crops are in, and will then move to Montgomery, Ala., where he has purchased 990 acres.

CARTHAGE MAN IS FINED

Arthur Bowden Pays \$4 and Costs For Malicious Trespass

Arthur Bowden of Carthage was fined \$4 and costs yesterday afternoon in Squire Stech's court, on an affidavit filed by William Poe, also of Carthage, the charge being malicious trespass.

It was alleged by Poe that Bowden had taken a suit of clothes from him for which he had him arrested, but before coming to trial Bowden returned the suit, and as the result of this had him re-arrested on a charge of malicious trespass. Squire Stech stated that the law compelled a fine of \$4, or double the amount of the value placed on the article stolen.

PRESIDENT WILL SPEAK IN NEW YORK

Speech Will be Delivered Immediately After His Arrival From France Next Tuesday

MAY DOCK DURING MORNING

Atlantic Fleet, Now on the Hudson, Will go Out to Meet the George Washington

(By United Press.)

Aboard the United States Steamship, George Washington, July 1.—Averaging 16½ knots an hour through smooth seas, the George Washington was expected to reach New York next Tuesday. If advantage can be taken of the port in the morning, she is expected to dock before noon; otherwise she will be delayed until four o'clock.

The president is varying his study of executive papers with tours of the deck.

Washington, July 1.—President Wilson will speak in New York immediately after his arrival there, it was learned at the white house today.

His speech will be delivered at the Metropolitan Opera House or the Carnegie hotel. It is believed that his address will mark the opening of the campaign for ratification of the league of nations and peace treaty. However, it is not considered likely that he will give the vital information of the peace conference accomplishments such as he will give the senate.

Tentative plans for his reception are in the hands of a committee consisting of the former secretary of the treasury, McAdoo, Governor Smith of New York City, Mayor Hyland and Federal Attorney Martin.

The Atlantic fleet, now on the Hudson, will go out to meet the George Washington upon its arrival. The reception committee, with Secretaries Baker and Daniels will go on the dreadnaught Pennsylvania, the flagship.

The present plans are for him to start for Washington immediately after his speech.

FLAMES SWEEP WAREHOUSES

Fire Does \$200,000 Damage in Indianapolis—Defective Wiring.

(By United Press.)

Indianapolis, July 1.—Flames sweeping warehouses of the Indianapolis Cordage Company here, caused a damage estimated at \$200,000. S. Murdock, president of the company, said that the buildings were fully insured but that he did not know the value of the products stored in them. Defective wiring was believed to have caused the fire.

The warehouses covered three city blocks. Operations were suspended in them temporarily.

ELKS LODGE WILL SEND A DELEGATE

Dr. Charles S. Green, Past Exalted Ruler, Will be Local Representative at Convention

WORK IN WAR IS REVIEWED

And Now With the Conflict Over, Elks Are Co-operating in The Work of Reconstruction

The Rushville lodge of Elks will be represented at the national victory convention of the order at Atlantic City, next week, by Dr. Charles S. Green, past exalted ruler. Dr. Green will leave Saturday in order to reach the convention city in time for the opening on Monday.

The grand lodge session will be held at the Hotel Traymore and the national membership of 500,000 members will be represented by a delegate from each subordinate lodge. Bruce A. Campbell, of East St. Louis, is the grand exalted ruler.

The Benevolent and Protective Order of Elks, a strictly American secret order, had 50,000 of its members in the American army and navy during the war. When the war started Fred Harper, of Lynchburg, Va., was the grand exalted ruler, and he summoned the grand lodge in special war session. The Elks' war relief commission, with John K. Tener, former Governor of Pennsylvania, as chairman, was named at that session, and the commission immediately set on foot a movement to establish base hospitals. The grand lodge voted \$1,000,000 for the purpose and the first reconstruction hospital was built and paid for before a man was wounded. This was built on Parker hill, Boston, and there is no more perfectly equipped institution in the country. Next the Elks heard that the University of Virginia was organizing a base hospital for immediate service. The Elks voted \$60,000 to equip it. A little later they did the same thing for the University of Oregon. This was done at the suggestion of United States Senator Chamberlain, of Oregon, an Elk. Both units did good work in France. Next the Elks assisted the Salvation Army, knowing that the sisters in poke bonnets had no es-

MAYOR OFFERS \$25 TO GET AUTO PLATES BACK

Will Pay Reward For Information Which Will Lead to Arrest of Guilty Persons.

GETS PERMIT TO RUN AUTO

Do you know who got the mayor's numbers? Mayor Irvin today stated that he would pay a reward of \$25 for information which would lead to the arrest of the guilty person who took the two auto plates from his car some time between Friday and Sunday.

Any information which might be of help will be greatly appreciated and might lead to that \$25. The mayor went to Indianapolis yesterday afternoon and consulted with the secretary of state, and left an order for two new plates of the same number to be made. In the meantime, the state official gave the mayor a permit showing that the plates were taken and gave him the right to drive his car until the arrival of the new numbers.

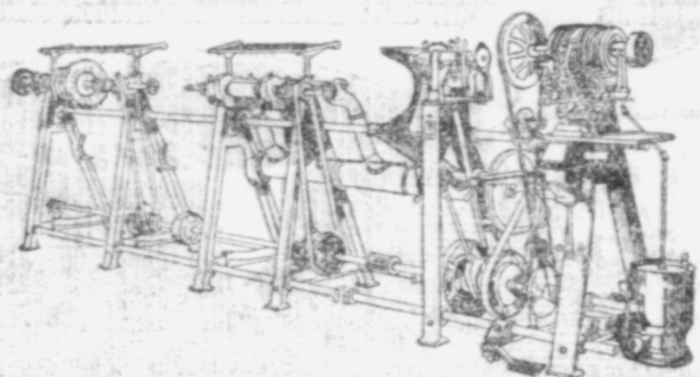

The mayor stated this morning that his case was like several which had come before him with numbers missing, and that on no occasion did he fine a person, if they could show the proper receipt furnished by the state department.

PESKY BED BUGS

A MILLION BEDBUGS. Just think, a 3c package of the new golden chemical P.D.Q. (Pesty Devils' Quietness) is enough to make a quart and enough to kill a million bedbugs, no matter how large they may be or where they came from, their age, color or sex, and at the same time leaves a coating on their eggs and prevents hatching.

Go farther than a barrel of old-fashioned bug killer. Don't let anybody impose upon your intelligence by offering you something else. Insist on what you ask for, then you'll have what doctors prescribe.

CUT THIS OUT. This new chemical can be had at any first-class drug store. A 3c package makes a quart of P.D.Q., and will

—Mr. and Mrs. J. Q. Thomas and Mrs. Mabel Carpenter and daughters Evelyn and Elizabeth left this morning for Colorado Springs, Colo., for an extended visit. They will be joined later by Mrs. Carpenter's husband.

The Perfect Oil for Cooking and Salads

MAZOLA

For deep fat frying Mazola is matchless.

It positively does not smoke up the kitchen. The smoking point is far above the temperature required to cook food properly.

It does not carry the odor or taste from one food to another—even fish or onions. It can be used over and over again.

Try this astonishing test of Mazola economy and universal use yourself—today.

MASON TIRES

The surplus mileage given by Mason Cord Tires reflects the wide experience and expert knowledge of the master tire builders in the MASON organization.

Every point that could possibly add to service and economy was considered in establishing the MASON standard. Each individual tire must come up to this standard.

In most cases the mileage given by Mason Tires far exceeds our liberal adjustment which is 10,000 miles for cords and 8,000 for fabrics. The only tire that went the entire distance in the last speedway races without a change.

We also handle a complete line of all standard makes of cord and fabric tires.

How Acme Worm Bouncer Expels Worms

When the hogs and pigs eat anything the Free-Intestinal worms do not like, they lay dormant. The hog which is fed Acme Worm Bouncer in the SELF FEEDER eats a little—several times a day. The WORM BOUNCER goes into the stomach and intestines—STRAIGHT. The time comes when the worm must eat, and when he does, the Acme Worm Bouncer PARALYZES the worm—he then must let go—and in that manner the Acme Worm Bouncer expels the worms and EXPELS THEM ALIVE from 5 to 7 days after you commence to feed Acme Worm Bouncer.

Acme Worm Bouncer is fed with perfect safety to all pregnant animals, whereas any remedy that kills the worm in the INTESTINES AND STOMACH is very injurious to the animal and very dangerous to use.

taining more than one-half of one per cent alcohol is intoxicating," the attorney general declared. "This has been the ruling of the internal revenue bureau for years and we are presuming that is what is meant by the war-time prohibition act as passed by congress."

Palmer said, however, that it is not his intentions to order wholesale arrests at present.

Beer and in some instances even light wines were still being sold in many cities, according to reports received today. These advices indicate there was much confusion as to what Attorney General Palmer meant about enforcing the law with regard to beer containing 2 1/2 per cent alcohol.

Palmer's official statement of the policy said he could not grant exemptions from prosecution to dealers in 2 1/2 per cent beer. There was no cloudiness about Palmer's attitude toward hard liquor. He announced flatly that the dealers in such products would be prosecuted.

Two Attractions

There will be two attractions in Ohio July 4, each offering a different appeal for crowds.

They will be events of national significance on the greatest "Fourth" in American history and it will be interesting to note which will attract the greatest audience. At Toledo Willard and Dempsey "the World's two greatest fighters," will fight and at Columbus Victory Day will be celebrated at the Methodist Centenary.

In Toledo will be gathered a mob of Americans who, while perfectly reputable under ordinary circumstances, will cheer the man who can deliver the fatal punch—the knock-out blow. The thousands of people who are gathering at Toledo for the fray will go away relieved of hundreds of thousands of dollars and robbed of that finer feeling of patriotism for which the day stands and for which thousands of American boys gave their lives on the fields of Flanders and France.

In Columbus hundreds of thousands of people will be reveling in the ideals which have placed the United States in the first ranks of civilization and in Toledo the multitude will be inspired by an exhibition of brute force. The contrast could scarcely be greater. There is no doubt about the wholesomeness of life which will come from the Columbus celebration, and the depressing reaction which will result from the prize fight. Both after-maths are inevitable because of the forces which draw the respective crowds.

Toledo and Columbus will represent the two great diverse interests in American life of today—those who have chosen the things for which the prize fight stands will go to Toledo without any apology, even with bands playing and banners flying, with special trains and caravans flying. They will make no apology because they think none is needed. The church people of Ohio and surrounding states have in this unusual situation an opportunity to make a great counter demonstration, rallying in the name of a Christianized nation and making it immediately apparent to the United States the forces that are good

Sap and Salt

By BERT MOSES

The history of the world is a story of the doings of radical men.

Sassiness is all right in a sweet heart; but, goodness me! not in a wife.

Youth and health are both gone before we realize their priceless value.

Troubles grow by telling them; also when you try to dilute them with liquor.

No man is in greater danger of doing a thing than he who has just "sworn off" doing it.

Eternal vigilance at the kitchen door is the only way to insure success in the hotel business.

Hez Heck says: "I know a man who goes to church only on Sundays when the creek is too muddy for the fish to bite."

have more power than those which draw in an opposite direction.

Willard and Dempsey are being billed as "The World's two greatest fighting men." This is very apparently a misuse of the words "fighting men" because the twentieth century definition of the term means men who have stood the test of battle—men who fought for their country and in doing so made untold sacrifices and performed deeds of heroism, compared with which a prize fight is nothing.

Neither Willard or Dempsey fought for their country. They are not "fighting men" in the sense that Americans think of "fighting men." Rather, to use the words of Grantland Rice, a sporting writer, they are "the World's two greatest business men." They are preparing to stand up and give and take the punches that the trained pugilist is able to deliver, for the harvest of gold which they will reap. They are out for the money.

But—to quote Mr. Rice again—"Both put together haven't one-fiftieth of the hero tinge that surrounded a lone buck private slogging wearily along muddy French roads in the general direction of death and disablement, devastation and devotion to duty."

If the Reds only knew it, Cincinnati is getting a lot of moral support from Rush county baseball fans who are pulling for them to win the National League pennant so that a world's series game will be within their reach.

Some are afraid the senate will not get the peace treaty out of the way in time for the 1920 campaign to open.

No doubt last night's debauch in wet cities made a lot of prohibitions.

The fellows who swore off on this, the morning after, meant it this time.

Try For The Prize

Beginning today, the Daily Republican will print each day a stickful of fun, and in order to make each one clever and original, a prize of one dollar will be offered for each joke, submitted by readers of the Daily Republican, which is accepted. Sharpen up your lead pencils and your wits and try to recall some funny experience which will appeal to the sense of humor of the other fellow—and earn a dollar.

Leaning over the transport rail and idly watching a calm sea and in love, apparently, with his thoughts, a rangy negro with service stripes on his left arm and worrying about no submarines, which long since had surrendered by the gross, was awakened from his reverie by a colored sergeant.

"Boy, you is lookin' powerful peaceful. What you-all gwine do when you gits back to Gawgah?"

The dreaming negro lazily waved him to silence and murmured:

"Yalla, when Ah gits mahself home Ahm gwine to borrow all de money Ah kin an' buy two mules. Then Ah gwine name one of 'em Lutenant an' de tother one Sargent an' eleven times ev'ry day Ahm gwine to kick hell outen both of 'em!"

DESIGN OF A SEAL**

State Department of Conservation
Wants a Drawing for a Permanent Seal.

CHANCE FOR ART STUDENTS

Artists, designers and art students are invited to participate in a design competition for a seal for the Department of Conservation, State of Indiana.

The design must be submitted in the form of a finished pen and ink drawing that, besides permitting of adaption for a seal die, will lend itself for reproduction by the zinc etched relief line process and be suitable for use as an emblem on letter heads and printed matter of the Department of Conservation.

The size of the contemplated stamping die is to be two inches. The designs should be larger, and in order to permit of satisfactory comparison it is suggested that they be made six inches.

The seal should bear the words, "The Department of Conservation, State of Indiana".

The drawings should be made on a good quality paper, size 10 by 15 inches and sent to William Coughlen secretary of the John Herron Art Institute, Indianapolis. Prizes will be given for the best three submitter, \$50 for the first, \$30 for the second and \$20 for the third. Competitors may submit as many designs as they wish but each design should be on a separate piece of paper.

Amusements

William S. Hart at Princess

William S. Hart will be shown tonight at the Princess in "The Money Corral," a new Artercraft picture. It takes a pretty good man to stand up before a brace of six shooters and not flinch, but this is proved when the star encounters some underworld crooks in Chicago and bests them at their own game. He also saves a trust company by preventing the theft of important proxies. The opening scenes are of a great raid in the frontier town of Fraley Point, Montana. There takes place the wild riding and shooting, all the sports of the cow country.

A charming love story runs through the picture which was writ-

on his Chest

GASSED WHILE IN SERVICE

A serious automobile accident happened Sunday afternoon about two miles east of Glenwood on the Connersville pike, when the machine driven by William O'Neal of Connersville turned over and pinned the occupants under it. Mr. O'Neal was accompanied by his son, John, and they were on their way to Shelbyville.

It is still unaccountable to both of them how the thing happened but in about two seconds the car was wheels-up in a ditch at the roadside, the son pinioned under it and the father disentangling himself from the barbed wire fence. The son was the worse hurt as he had only been home from France a short time, where he was gassed, and the machine was pressing on his chest, which had not thoroughly healed from the mustard gas. The father suffered many bruises and cuts.

Both were taken to their home in Connersville, and the son is in a grave condition. The machine was a total wreck.

ten by Mr. Hart and Lambert Hill-
yer, who also directed the produc-
tion.

Jane Novak is leading woman. Herschell Mayall is the heavy; Winter Hall, Rhea Mitchell and Patricia Palmer are among the other players who will be seen in the picture.

It is said that for sheer thrill and the qualities of human interest, the triumph of right over evil, the perfection of scenic investiture, this picture is one of the most notable ever offered starring William S. Hart.

Tomorrow Theda Bara will be shown in "The Light," which is a typical picture of her acting, and has been termed as a "story of a wicked woman."

UNDERGOES OPERATION

2 OLD HIGH SCHOOL TEACHERS EMPLOYED

R. J. Cullipher and A. H. Sutton, Who Left in 1917 to Enter Service, Will Return Here

IRVIN SHULTZ IS EMPLOYED

The Rushville school board has employed two teachers, who left their positions here in 1917 to enter the service, the return of whom will meet with popular approval because they were both competent instructors and were well liked by school patrons and high school students.

Supt. J. H. Scholl announced today that R. J. Cullipher would return as manual training instructor, succeeding John F. Sloan and A. H. Sutton as science instructor, succeeding Miss Kathryn Kintz. Mr. Cullipher, since being discharged from the service, has been running a vulcanizing shop at Muncie and Mr. Sutton is now teaching in the state normal school at Terre Haute.

The board has not found anyone to take the place of Glen Curtis, athletic coach, who recently notified the board he would not return after having signed a contract. Irvin Shultz, who assisted in coaching the championship Spiceland academy basketball team last year, has been employed to teach history and can help out with the coaching, but the board hopes to find some one to take charge of athletics. Mr. Shultz is taking a special course at Columbia university this summer.

FIRE DAMAGE \$100,000

Spontaneous Combustion Blamed For Evansville Loss Today

(By United Press.)

Evansville, Ind., July 1—Spontaneous combustion resulted in the fire which destroyed the planing mill and lumber yards of Theodore Rechin today.

The loss was estimated at \$100,000, part of which is covered by insurance.

Only the walls of the building remained standing. The flames spread so rapidly that the building was practically destroyed before the firemen reached it.

tablished system for raising money. One of the first checks given the Salvation Army was for \$60,000 for its work in France.

And now, the war over, the Elks are co-operating in the work of reconstruction. They have set aside \$50,000 to help Dr. C. A. Prosser, director of the federal board of vocational education, obtain nationwide publicity for his work in connection with the re-education of disabled soldiers, sailors and marines. The publicity is for the purpose of bringing these heroes into contact with Dr. Prosser. The Soldiers' Friend Committee, also an Elks' organization, is co-operating with Dr. Prosser to help the disabled soldiers, sailors and marines maintain their families during the period of education. The wounded men are to be taught trades that can be followed despite their wounds. The Elks have placed \$150,000 at the disposal of Dr. Prosser to assist the men during the period of training.

Still another \$50,000 will be lent to the men as their needs are disclosed. These loans are to be returned as soon as the government has completed its war risk settlements with the wounded men.

EARTHQUAKE DEATHS WILL BE INCREASED

With Resumption of Communication in Devastated Region, More Casualties Are Expected

ITALIAN VILLAGES ARE RAZED

(By United Press.)

Rome, July 1.—The earthquake which shook northern Italy Sunday, continued early today.

Scores of persons were dead and hundreds injured. With the resumption of communication, casualties will be increased. A number of villages were razed and the ruins searched.

Forty persons were dead at Viechio, which was almost wiped out. Marland was also razed and a majority of the population is believed to be buried under the ruins. Heavy casualties are expected there.

The destruction was great at various cities, large numbers of persons being buried under the debris.

Florence was among the cities reporting casualties.

Only meagre news could be received today owing to the dislocation of communication facilities.

Obituaries... 33

In Loving Remembrance of
Joseph Gilbert Murphy.

The Death Angel has again visited a dear home circle and borne to the tender arm of the compassionate One its most precious jewel. Another bud has fallen from the tree of life and another earthly home has been made desolate by the loss of its dearest treasure. The sparkling eyes are closed, the busy hands are folded, the loving little heart has ceased its pulsations and the pure spirit has been recalled by Him who created it for His own wise purpose.

Joseph Gilbert Murphy, the only and well-beloved little son of Mr. and Mrs. Johnny Murphy, was born near New Salem, Rush Co., Indiana, June 21st, 1913. Died, after a brief illness, that baffled medical skill and which only the great Physician could cure, June 18th, 1919, aged five years, eleven months, twenty-seven days.

He was the only child of Johnny and Jessie Colvin Murphy and nothing now remains to those who loved him here but precious memories of one not lost but gone before, and the promise sure and steadfast that they may meet him sometime in the great Beyond.

Those who survive to mourn his inestimable loss and untimely death are his father, and mother, grandfather and grand-mother, uncles, aunts and cousins and a wide circle of other relatives.

He had a most affectionate and lovable disposition and a multitude of endearing ways, and although so young he manifested an unusual interest and understanding of Divine worship.

The grief stricken young parents have the heartfelt sympathy of their wide circle of friends in their bereavement, but earthly consolations fail in such hours of sorrow. In their anguish, may their aching hearts turn to Him, who alone can comfort.

May they never remember Gilbert as racked with pain and pallid with suffering but think of him only as a radiant being in shining raiment, with his little angel hands ever beckoning them to his own glorious home, and may their grief thus become their benediction.

"Smooth the waves of his shining hair

O'er his marble brow with tender care;

Gather his garments in a final fold, Around a form that will ne'er grow old.

Kiss him and leave him, your heart's delight,

In dreamless peace he will sleep tonight.

Put by his toys and his empty chair,
Fold up the garments he used to wear;

The work God gave to your darling son

Is finished now and his guerdon won;

Strangely quiet and cold and white,
All pain is gone—he will sleep to-night.

O mystic sleep that will not break

For tears nor prayers nor love's sweet sake!

O life divine beyond all speech,
That only the pure through dying reach;

God understands and His ways are right,

Bid your beloved a long good-night.

Weep for the days that will come no more,

For your treasure that's flown from your door,

For his missing step; for his winsome face;

For his loving arm; for his vacant place;

Weep not for the soul whose goal is won,

Whose infinite joy has just begun;

Weep not for his spirit robed in white,

And crowned where the angels are tonight."

7 A DAY FOR 7 DAYS

If Your Nerves Are Shaky Because of
Over-Indulgence in Tobacco or
Alcohol or by Excess of Any Kind,
Bio-Feren is What You Need
Rly Away.

Don't grow old before your time, don't let nervousness wreck your happiness or chances in life. The man with strong, steady nerves is full of vigor, energy, ambition and confidence.

You can have nerves of steel, firm step, new courage and keen mind by putting your blood and nerves in first-class shape with mighty Bio-Feren, a new discovery, inexpensive and efficient.

Men and women who get up so tired in the morning that they have to drag themselves to their daily labor will in just a few days arise with clear mind, definite purpose and loads of ambition.

All you have to do is to take two Bio-Feren tablets after each meal and one at bedtime—7 a day for 7 days—then reduce to one after each meal until all are gone.

Then if your energy and endurance haven't doubled, if your mind isn't keener and eyes brighter, if you don't feel twice as ambitious as before, any druggist anywhere will return the purchase price—gladly and freely.

Bio-Feren is without doubt the grandest remedy for nervous, rundown, weak, anaemic men and women ever offered and is not at all expensive. All druggists in this city and vicinity have a supply on hand—sell many packages.

FASCINATING TEETH

How Every Woman Can Quickly Charm Her Friends With
Lovely Teeth,
Clean, White and Brilliant

If you want the cleanest of white teeth and healthy gums free from disease, an easy and quick way to get both is to use a tooth paste so effective and perfect that astonishing results usually come in a week's time.

And the cost is so little. Just go to any drug or department store, and get a large tube of SENRECO TOOTH PASTE for 35 cents.

Not only will it make your teeth clean and white, but it will at once remove any filmy coating, help to check the ravages of Pyorrhea and banish acidity in the mouth.

It is used by thousands of dentists and its sale has been remarkable. When you visit your dentist, which you should do at least twice a year, ask him about SENRECO. It's a most delightful and refreshing tooth paste.

ROOSEVELT PEAK WILL
BE CHRISTENED JULY 4

Highest Peak in Black Hills of Dakota to be Renamed, in Honor of Ex-President.

IT IS NEAR HIS OLD HOME.

New York, July 1—A natural monument to the memory of the late Col. Theodore Roosevelt will be established in South Dakota on July 4, when the highest peak in the Black Hills of that State will be rechristened Mount Theodore Roosevelt. Lieut.-Col. Theodore Roosevelt and Col. William B. Thompson, president of the Roosevelt Memorial Association, will attend the ceremony. The Governor of South Dakota will preside and Major General Leonard Wood will be one of the speakers.

The mountain, now known as Sheep Mountain and Round Top, is located about three miles from Deadwood. The country wherein Roosevelt, as a young ranchman, laid the foundation for his vigorous physique can be seen from its summit. A cairn of boulders of native granite has been erected at the top of the mountain by a committee of the late ex-President's early associates, headed by Captain Seth Bull-ock.

In connection with the ceremonies a big round-up and barbecue picnic have been arranged by Sylvane Ferris and William J. Merrifield, Roosevelt's ranch partners, and Joe Ferris, who took him on his first buffalo hunt.

State officials from Wyoming, Nebraska, and Montana have promised to attend.

CHOKES ON GRAIN OF CORN

7-Year-Old Daughter of Mr. and Mrs. Samuel Doggett Dies

Mabel, the seven-year-old daughter of Mr. and Mrs. Samuel Doggett of near St. Paul, choked to death Sunday night when some grains of corn became lodged in her windpipe. The child while playing with several other children of the neighborhood, put some grains of corn in her mouth and when she started to run the grains caught in the trachea, and her death resulted in about thirty minutes.

The Doggett family is well known in the St. Paul vicinity, and are especially well known in southwestern Rush county.

WHEAT STOCKS 3 TIMES AS LARGE

Commercial Stocks as Reported by
the Department of Agriculture
Amount to 51,392,898 Bu.

SUPPLY FIGURES COMPARED

Gives Summary of Figures Representing Stocks Reported to Departments June 1, 1919.

Commercial stocks of wheat reported in a survey made by the Department of Agriculture for June 1, 1919, amounted to 51,392,898 bushels. These holdings were reported by 8,684 firms, comprising elevators, warehouses, grain and flour mills, and wholesale dealers, and represented nearly three times the stocks held by the same firms on June 1, 1918, the actual percentage being 274.5 percent of the 1918 stocks. The figures refer to stocks actually reported and do not represent the total commercial stocks of the country nor do they include stocks on farms.

The commercial visible supply figures, as published by the Chicago Board of Trade for May 31, 1919, show 23,702,000 bushels of wheat, against 1,146,000 a year earlier. The

corresponding Bradstreet figures show 27,626,000 bushels, as against 1,379,000 for 1918. As compared with the same date last year, these figures, as well as those obtained by the more extensive survey, show a very great relative increase in commercial stocks of wheat on June 1, 1919.

The commercial stocks of other cereals reported for June 1, 1919, according to the department's statement, were as follows: Corn, 17,254,576 bushels; oats, 45,770,543 bushels; barley, 20,043,375 bushels; rye, 11,624,331 bushels. These stocks represent the following percentages of the corresponding stocks on June 1, 1918: Corn, 47.6 per cent; oats, 90.6 per cent; barley, 207.2 per cent; rye 346.1 per cent.

The commercial stocks of flour and corn meal, as reported for the survey, were as follows: Wheat flour, white, 5,653,051 barrels; whole wheat and graham flour, 32,065 barrels; barley flour, 17,822 barrels; rye flour, 165,243 barrels; corn flour, 6,128,427 pounds; corn meal, 40,297,627 pounds; buckwheat flour, 20,351,650 pounds; mixed flour, 15,299,679 pounds. These stocks represent the following percentages of the stocks on hand a year ago: Wheat flour, white, 121.8 per cent; whole wheat and graham flour, 31 per cent; barley flour, 4.6 per cent; rye flour, 31.1 per cent; corn flour, 14.3 per cent; corn meal,

29.1 per cent; buckwheat flour, 326.8 per cent; mixed flour, 158.5 per cent.

Elevators, warehouses and wholesale dealers reported stocks of dry edible beans amounting to 5,291,550 bushels, while wholesale grocers and warehouses reported the following commodities in the quantities indicated: Cleaned rice, 90,013,887 rolled oats, 87,641,132 pounds; canned salmon, 110,202,642 pounds; canned tomatoes, 199,998,969 pounds; canned corn, 86,649,754 pounds; sugar, 225,345,574 pounds. These stocks represent the following percentages of the corresponding stocks on hand June 1, 1918: Beans, 96.5 per cent; rice, 93.1 per cent; rolled oats, 77.7 per cent; canned salmon, 120.1 per cent; canned tomatoes, 202.3 per cent; canned corn, 191.8 per cent; sugar, 95.4 per cent.

Camel Cigarettes

CAMEL cigarettes win smokers from the start because the expertly blended choice Turkish and choice Domestic tobaccos make possible Camel's delightful mellow-mildness with that all-there "body."

Camels meet your fondest cigarette fancies in so many ways. Their flavor is unusual and refreshing; and, they permit you to smoke as long as you will without any unpleasant cigarettey aftertaste or unpleasant cigarette odor. They're simply a cigarette delight! That's the way you'll put it!

You'll find Camels good all the way through. It is a fact, you'll prefer Camels expert blend of choice Turkish and choice Domestic tobaccos to either kind of tobacco smoked straight! And, Camels may be smoked liberally without tiring your taste.

To know Camels best compare them in every possible test with any cigarette in the world at any price!

Camels are sold everywhere in scientifically sealed packages, or ten packages (200 cigarettes) in a glassine-paper-covered carton. We strongly recommend this carton for the home or office supply or when you travel.

The American's Creed

I believe in the United States of America, as a government of the people, by the people, for the people; whose just powers are derived from the consent of the governed; a democracy in a republic; a sovereign nation of many sovereign states; a perfect union, one and inseparable; established upon those principles of freedom, equality, justice and humanity for which American patriots sacrificed their lives and fortunes.

I, therefore, believe it is my duty to my country to love it, to support its constitution, to obey its laws, to respect its flag, and to defend it against all enemies.

See the Asbestos Sweat

COME AND SEE WHY
COPPER-CLAD RANGES
DO NOT RUST OUT.

A section of a range body is heated and there on the iron body is sweat from the asbestos. Right before your eyes you see just exactly what happens every time you build a fire in your range. You see why the sheet of copper is used and what it does and how it does it. You take nobody's word—you see—you know—absolutely positively.

Copper-Clad means that a sheet of pure Copper is BETWEEN the sweaty asbestos and range body. To place it elsewhere would be like climbing on a roof to get out of the rain.

SAVE A THOUSAND SHOVELS OF COAL EVERY YEAR.

You know how the many walls and air spaces of a thermos bottle hold the heat. You know that a house with a single wall is not as warm as the house with two walls and an air space. You know that storm windows, two windows, with a space between, are much warmer than a single window, even if it is as thick as the two windows.

The Copper-clad Range has four walls and an air space. See what it means in fuel-saving.

"OH—YOU BEAUTY"

That's what comes to your mind every time you go in the kitchen and see the Copper-clad Range. It is an inspiration, because the finest known example of the artificer's art in range making. It is a picture because so pleasing—a statue because ideal in proportions—a symphony because of the perfect performance.

INJURIES FATAL TO BIG 4 ENGINEER

Edward Griswald of Wabash Dies
at Home of Ed Wolter Monday
Night, 12 Days After Accident

SCALDED IN RAIL COLLISION

Body Returned to Late Home on
Special Train—Every Comfort
Provided for Injured Man.

Edward Griswald, Big Four engineer, whose condition was hopeful up until late Sunday night, expired last evening about five thirty as the result of injuries sustained in a train wreck here on Wednesday afternoon, June 18, when his engine collided with a C. I. & W. engine at the intersection of the tracks.

Engineer Griswald was taken to the home of Ed Wolter, 630 West Third street, because of the crowded condition of the Sexton hospital, and he was given medical attention by specialists at the Wolter home.

His condition was very hopeful and he was improving slowly day by day, and the attending physician on Sunday afternoon spoke very encouragingly of his recovery, but a sudden change took place in the night, and all hope was abandoned yesterday. Relatives from various places were called. Mrs. Griswald has been here since the accident, having come to Rushville in an automobile from her home in Wabash.

The fireman on the engine of which Mr. Griswald was in charge, was also hurt, it will be remembered, but he is now on the road to recovery. The fireman was C. E. Kramer of Anderson.

Railroad brotherhood representatives have been constantly here and did much for the comfort of their deceased member. The Big Four railroad considered their employee as one of the best as he has been an engineer and railroader with them for a long time and showed their respects by issuing orders to all trainmen to be as quiet as possible with their trains while in the neighborhood of the injured man, even engines softened their whistles while approaching the house.

The deceased was a man of 45 years, and is survived by the widow and a son and daughter. The body was taken to their home in Wabash about ten-thirty last night on a special train sent here for that purpose.

SOME OF INJURED MAY DIE

(By United Press.)

Dunkirk, New York, July 1.—Eight persons were killed and fifteen were injured early today in a rear-end collision of two New York Central passenger trains in the Dunkirk station.

It was feared that some of the injured were fatally hurt.

Train No. 41 was standing at the Dunkirk station where it had been delayed by a hot-box.

A flagman endeavored to stop train No. 7 which was following. The airbrake on the second train apparently failed to hold. The men hurled a lantern at the cab of the locomotive.

No. 7 ploughed into the rear of the standing train and the boiler of the

LOCAL BANK BOYS ISSUE

Gabe Hildreth Road Bonds Sold
Subject to State Board's Approval

A bond issue of \$9,760 to build the Gabe Hildreth road in Richland township was sold by the county treasurer, Charles A. Frazee, yesterday afternoon for par and accrued interest, to the Rushville National bank, subject to the approval of the state board of tax commissioners, which has to pass on every road bond issue before it is legal. The road bond market has been slow for the last several months and as a result no bids have been ordered on some issues. Others were sold by interested persons making up the difference between the market and par.

DECISION MAY LEGALIZE BEER

Judge John C. Rose of District Court
Rules in Favor of Brewers in
Test Case.

PALMER STATES POSITION

Says Dealers Who Continue to Sell
Beer Will be in Danger of Arrest and Prosecution.

(By United Press.)

Baltimore, July 1.—Judge John C. Rose of the United States district court this afternoon sustained the demurrer of the Standard Brewing Company of this city to the indictment of the United States government in the manufacture of the 23 per cent beer.

The decision may mean continuance of the sale of 23 per cent beer as Attorney General Palmer stated that it would rest on the Baltimore case.

Washington, July 1.—Law enforcement of war time prohibition will mean the hasty enactment of strict enforcement legislation, prohibition leaders in congress today declared.

The dries, headed by Chairman Volstead of the judiciary committee, will press the enforcement bill early next week, asking for a special rule so that it may be considered.

"The apparent confusion over enforcement of the war-time prohibition bill shows the need of more legislation," Volstead said, "and with dry majority in congress, I am sure this can be readily approved."

"Dealers who continue to sell beer are in danger of arrest and prosecution," Attorney General Palmer declared today.

Explaining the official statement of the course to be followed by the department of justice regarding war-time prohibition, Palmer declared, as to whether 23 per cent beer would be prohibited, Palmer said: "I have not claimed amnesty would be granted for unauthorized sale of this beer."

"My contention is that any one who continues to sell beer is in violation of the law."

County Board of Review

NEW RULINGS RECEIVED HERE

Commissioners Hold Rushville
Township Assessor Must Notify
City Taxpayers of Changes

The county board of review began the appraisal of the real estate and improvements and personal property of Rush county corporations today. J. Monroe Fitch of Muncie, representative of the state board of tax commissioners, is sitting with the board, giving advice in the work and interpreting the new state tax law wherever necessary.

The reviewers had to postpone the work of reassessing the real estate and improvements in Rushville city, on which they have been engaged most of the time since the session began Monday, June 2. It will be resumed as soon as the task now before the board is completed. When here the last time, Mr. Fitch told the board that he would be back July 1 to appraise the corporations.

The board's session will end sooner than expected because of a ruling of the state board of tax commissioners received by Earl Priest, county assessor, to the effect that Sundays should be counted as working days in the thirty-eight days allowed by the new law for review boards in counties with a population less than 20,000, in years when real estate is assessed. In years when real estate is not assessed, the board's session is twenty-eight days under the new law.

Under the old law Sundays did not count in the number of days the board was to sit, but then the session was only for twenty days in off years and thirty days in real estate years. In the long run, the board's session under the new law is not much longer than formerly.

The board is up against another proposition. Members are undecided whether the Fourth of July should

BOUGHT FOR \$1.25 AND HELD FOR THE THEFT SOLD FOR \$225 AN ACRE OF AUTO ACCESSORIES

Part of Land Purchased by John C.
Blackledge's Grandfather From
Government in 1823

346 ACRES AVERAGE \$250

John C. Blackledge has sold the remainder of his Rush county farm of 180 acres to Sylvester Kirkpatrick. The land which he has just sold is part of the original old Blackledge homestead, northeast of Rushville, and by selling this farm, Mr. Blackledge disposes of his last remaining Rush county land.

Blackledge sold 100 acres of the farm to David I. Harkins of Spencer Station, and also sold his residence in North Main street to Harkins. In selling the land, Blackledge reserves the right to use the same for a road or for other purposes.

NEW PHONES FOR GLENWOOD ARRIVE

They Are of a Later Design Than
Those in Use Either in Rushville
or Indianapolis.

SPECIAL ONE FOR PARTY LINE

System Will be Ready For Use by
Middle of September—Numbers
Will be Two-Figures.

The Rushville Co-operative telephone company has just received a shipment of new telephones which will soon be installed in Glenwood. The phones are of a newer type than those used here and are even of a later design than those used in Indianapolis.

The automatic system when installed in Glenwood will be the most complete and newest in the state, as everything will be automatic and will require no attention whatever, even the batteries being recharged automatically.

The phones are on the order of those in Indianapolis, being smaller than the local phones, with a smaller dial at the base of the pedestal. Some of the new phones are equipped to be used on party lines, and the receiver, when first lifted must be again released by touching a spring near the transmitter, which will in no way interfere with the other phones on the line.

When installed Glenwood patrons will call direct into Rushville, by first calling two numbers, 01, and then calling the four numbers on the Rushville system. The Glenwood numbers will all be two figures, and the calls in Glenwood from phone to phone will go through their own exchange—all of which will be a "no man exchange." Long distance calls from Glenwood will be taken care of through the Rushville office.

Many people when shown the new phones wanted one installed in Rushville, but they are not adapted to the switchboard here and it will be useless to try to get one.

The switchboard for the Glenwood exchange will be installed within 15 or 20 days, and it is probable that the system will be completely installed not later than the middle of September.

MAN IS FINED

Arthur Bowden Pays \$4 and Costs
For Malicious Trespass

Arthur Bowden of Carthage was fined \$4 and costs yesterday afternoon in Squire Stech's court, on an affidavit filed by William Poe, also of Carthage, the charge being malicious trespass.

It was alleged by Poe that Bowden had taken a suit of clothes from him for which he had him arrested, but before coming to trial Bowden returned the suit, and as the result of this had him re-arrested on a charge of malicious trespass. Squire Stech stated that the law compelled a fine of \$4, or double the amount of the value placed on the article stolen.

PRESIDENT WILL SPEAK IN NEW YORK

Speech Will be Delivered Immediately
After His Arrival From
France Next Tuesday

MAY DOCK DURING MORNING

Atlantic Fleet, Now on the Hudson,
Will go Out to Meet the George
Washington

(By United Press.)

Aboard the United States Steamship, George Washington, July 1.—Averaging 10 1/2 knots an hour through smooth seas, the George Washington was expected to reach New York next Tuesday. If advantage can be taken of the port in the morning, she is expected to dock before noon; otherwise she will be delayed until four o'clock.

The president is varying his study of executive papers with tours of the deck.

Washington, July 1.—President Wilson will speak in New York immediately after his arrival there, it was learned at the white house today.

His speech will be delivered at the Metropolitan Opera House or the Carnegie hotel. It is believed that his address will mark the opening of the campaign for ratification of the league of nations and peace treaty. However, it is not considered likely that he will give the vital information of the peace conference accomplishments such as he will give the Senate.

Temporary plans for his reception are the hands of a committee headed by the former secretary of the treasury, McAdoo, Governor Smith of New York, City Mayor Holland and Indiana Attorney General.

The Atlantic fleet, now on the Hudson river, is expected to meet the George Washington on the arrival of the president's committee with Secretary of the Navy Daniels will go on to meet the president in Pennsylvania.

The president is for him to be met by the state and city officials.

At the time of the accident there was a crowd of people gathered around the car, which was being driven by the driver, who was killed.

REWARD OF \$25 FOR ARREST

Two arrests were made yesterday afternoon after a theft of \$250 worth of auto accessories was reported.

The stolen items were taken from an automobile owned by Ollie Ollie, which was wrecked in the Brookston farm on June 10. The two arrests were made by the Brookston police and the Brookston sheriff.

ELKS LODGE WILL SEND A DELEGATE

Dr. Charles S. Green, Past Exalted
Ruler, Will be Local Representative at Convention

WORK IN WAR IS REVIEWED

And Now With the Conflict Over,
Elks Are Co-operating in The
Work of Reconstruction

The Rushville lodge of Elks will be represented at the national victory convention of the order at Atlantic City, next week, by Dr. Charles S. Green, past exalted ruler. Dr. Green will leave Saturday in order to catch the convention city in time for the opening on Monday.

The grand lodge session will be held at the Hotel Traymore and the national membership of 500,000 members will be represented by a delegate from each subordinate lodge. Bruce A. Campbell, of East St. Louis, is the grand exalted ruler.

The Benevolent and Protective Order of Elks, a strictly American secret order, had 50,000 of its members in the American army and navy during the war. When the war started Fred Harper, of Lynchburg, Va., was the grand exalted ruler, and he summoned the grand lodge in special war session. The Elks' war relief commission, with John K. Tener, former Governor of Pennsylvania, as chairman, was named at that session, and the commission immediately set on foot a movement to establish base hospitals. The grand lodge voted \$1,000,000 for the purpose and the first reconstruction hospital was built and paid for before a man was wounded. This was built on Parker hill, Boston, and there is no more perfectly equipped institution in the country. Next the Elks heard that the University of Virginia was organizing a base hospital for immediate service. The Elks voted \$50,000 to equip it. A little later they did the same thing for the University of Oregon. This was done at the suggestion of United States Senator Chamberlain, of Oregon, an Elk. Both units did good work in France. Next the Elks assisted the Salvation Army, knowing that the sisters in poke bonnets had no es-

be counted as a working day. If it is then the board's session will end a week from tomorrow, July 9. Otherwise it would end on July 10. The board will be busy up to the last minute because of the extra work due to re-assessing Rushville.

Still another problem has been confronting the board and an opinion from the state board of tax commissioners was sought to solve it. The board was undecided whether publication of the valuations placed on Rushville real estate and improvements in the Daily Republican, with sufficient notice to owners of the property made. If not, the board did not know who should deliver the notice.

The situation was explained to the state board in a letter written last Friday. A reply just received from the state board says that publication in a newspaper is not sufficient notice and that it is the duty of the Rushville township assessor to deliver the notices of the reassessments. The law does not specifically provide for a case like the one in Rushville. It says that where assessments are changed by the board, the township assessor shall give notice, but makes no mention of case where the appraisements of a whole taxing unit are changed.

From Water to Fifth streets, between Jackson and Harrison, valuations were fixed as follows:

James T. Arbuckle, (6 improvements), \$2,600; Mary E. Aulman, (2 improvements), \$5,500; Mary E. Reardon, \$1,800; Helen and Noble Grady, \$1,400; Robert N. Hard Luck With Hogs
seldom comes when

SWIFT'S DIGESTER TANKAGE
is fed with corn and other farm grown feeds.

This combination makes healthy pigs and hogs that can resist disease. Insufficient protein means that you are running the risk of losing your hogs.

(This is confidential)

Swift's Digester tankage supplies available protein more cheaply than any other hog feed.

Are You Open to Conviction?

Do You Want a Hog Feed That Will Give Results?

If you do, just try some of this Vitality Hog Feed. It is made from Milk Albumen, Pure Blood Meal, Corn Feed Meal, Wheat Middlings, Old Process Linseed Oil Meal, Ground Barley, Ground Oats, Bone Meal, Ground and Bolted Wheat, Kafir and Barley Screenings, and 1/2 of 1% Salt. The milk albumen used in this feed is 50% Protein. This feed is so low in fibre, high in protein and containing the Bone Phosphates that it is just what you need to grow those young pigs or to finish the old ones. It is a feed that will grow the frame and then finish the hog like the kind that top the market. A trial order will convince you it is all we claim. Try a bag or two and let the hog be the judge.

MASON TIRES

¶ The surplus mileage given by Mason Cord Tires reflects the wide experience and expert knowledge of the master tire builders in the MASON organization.

¶ Every point that could possibly add to service and economy was considered in establishing the MASON standard. Each individual tire must come up to this standard.

¶ In most cases the mileage given by Mason Tires far exceeds our liberal adjustment which is 10,000 miles for cords and 8,000 for fabrics. The only tire that went the entire distance in the last speedway races without a change.

¶ We also handle a complete line of all standard makes of cord and fabric tires.

How Acme Worm Bouncer Expels Worms

When the hogs and pigs eat anything the Free-Intestinal worms do not like, they lay dormant. The hog which is fed **Acme Worm Bouncer** in the SELF FEEDER eats a little—several times a day. The WORM BOUNCER goes into the stomach and intestines—STRAIGHT. The time comes when the worm must eat; and when he does, the **Acme Worm Bouncer** PARALYZES the worm—he then must let go—and in that manner the **Acme Worm Bouncer** expels the worms and **EXPELS THEM ALIVE** from 5 to 7 days after you commence to feed **Acme Worm Bouncer**.

Acme Worm Bouncer is fed with perfect safety to all pregnant animals, whereas any remedy that kills the worm in the **INTESTINES AND STOMACH** is very injurious to the animal and very dangerous to use.

taining more than one-half of one per cent alcohol is intoxicating," the attorney general declared. "This has been the ruling of the internal revenue bureau for years and we are presuming that is what is meant by the war-time prohibition act as passed by congress."

Palmer said, however, that it is not his intentions to order wholesale arrests at present.

Beer and in some instances even light wines were still being sold in many cities, according to reports received today. These advices indicate there was much confusion as to what Attorney General Palmer meant about enforcing the law with regard to beer containing 2 1/2 per cent alcohol.

Palmer's official statement of the policy said he could not grant exemptions from prosecution to dealers in 2 1/2 per cent beer. There was no cloudiness about Palmer's attitude toward hard liquor. He announced flatly that the dealers in such products would be prosecuted.

Two Attractions

There will be two attractions in Ohio July 4, each offering a different appeal for crowds.

They will be events of national significance on the greatest "Fourth" in American history and it will be interesting to note which will attract the greatest audience. At Toledo Willard and Dempsey "the World's two greatest fighters," will fight and at Columbus Victory Day will be celebrated at the Methodist Centenary.

In Toledo will be gathered a mob of Americans who, while perfectly reputable under ordinary circumstances, will cheer the man who can deliver the fatal punch—the knockout blow. The thousands of people who are gathering at Toledo for the fray will go away relieved of hundreds of thousands of dollars and robbed of that finer feeling of patriotism for which the day stands and for which thousands of American boys gave their lives on the fields of Flanders and France.

In Columbus hundreds of thousands of people will be reveling in the ideals which have placed the United States in the first ranks of civilization and in Toledo the multitude will be inspired by an exhibition of brute force. The contrast could scarcely be greater. There is no doubt about the wholesomeness of life which will come from the Columbus celebration, and the depressing reaction which will result from the prize fight. Both aftermaths are inevitable because of the forces which draw the respective crowds.

Toledo and Columbus will represent the two great diverse interests in American life of today—those who have chosen the things for which the prize fight stands will go to Toledo without any apology, even with bands playing and banners flying, with special trains and caravans flying. They will make no apology because they think none is needed. The church people of Ohio and surrounding states have in this unusual situation an opportunity to make a great counter demonstration, rallying in the name of a Christianized nation and making it immediately apparent to the United States the forces that are good

Sap and Salt

By BERT MOSES

The history of the world is a story of the doings of radical men.

Sassiness is all right in a sweet-heart; but, goodness me! not in a wife.

Youth and health are both gone before we realize their priceless value.

Troubles grow by telling them; also when you try to dilute them with liquor.

No man is in greater danger of doing a thing than he who has just "sworn off" doing it.

Eternal vigilance at the kitchen door is the only way to insure success in the hotel business.

Hez Heck says: "I know a man who goes to church only on Sundays when the creek is too muddy for the fish to bite."

have more power than those which draw in an opposite direction.

Willard and Dempsey are being billed as "The World's two greatest fighting men." This is very apparently a misuse of the words "fighting men" because the twentieth century definition of the term means men who have stood the test of battle—men who fought for their country and in doing so made untold sacrifices and performed deeds of heroism, compared with which a prize fight is nothing.

Neither Willard or Dempsey fought for their country. They are not "fighting men," in the sense that Americans think of "fighting men." Rather, to use the words of Grantland Rice, a sporting writer, they are "the World's two greatest business men." They are preparing to stand up and give and take the punches that the trained pugilist is able to deliver, for the harvest of gold which they will reap. They are out for the money.

But—to quote Mr. Rice again—"Both put together haven't one-fiftieth of the hero tinge that surrounded a lone buck private slogging wearily along muddy French roads in the general direction of death and dismemberment, devastation and devotion to duty."

If the Reds only knew it, Cincinnati is getting a lot of moral support from Rush county baseball fans who are pulling for them to win the National League pennant so that a world's series game will be within their reach.

Some are afraid the senate will not get the peace treaty out of the way in time for the 1920 campaign to open.

No doubt last night's debauch in wet cities made a lot of prohibitions.

The fellows who swore off on this, the morning after, meant it this time.

Leaving over the transport rail and idly watching a calm sea and in love, apparently, with his thoughts, a rangy negro with service stripes on his left arm and worrying about no submarines, which long since had surrendered by the gross, was awakened from his reverie by a colored sergeant.

"Boy, you is lookin' powerful peaceful. What you-all gwine do when you gits back to Gawwah?"

The dreaming negro lazily waved him to silence and murmured:

THREE PRIZES FOR DESIGN OF A SEAL

State Department of Conservation Wants a Drawing for a Permanent Seal.

CHANCE FOR ART STUDENTS

Artists, designers and art students are invited to participate in a design competition for a seal for the Department of Conservation, State of Indiana.

The design must be submitted in the form of a finished pen and ink drawing that, besides permitting of adaption for a seal die, will lend itself for reproduction by the zinc etched relief line process and be suitable for use as an emblem on letter heads and printed matter of the Department of Conservation.

The size of the contemplated stamping die is to be two inches. The designs should be larger, and in order to permit of satisfactory comparison it is suggested that they be made six inches.

The seal should bear the words, "The Department of Conservation, State of Indiana".

The drawings should be made on a good quality paper, size 10 by 15 inches and sent to William Coughlen secretary of the John Herron Art Institute, Indianapolis. Prizes will be given for the best three submitted, \$50 for the first, \$30 for the second and \$20 for the third. Competitors may submit as many designs as they wish but each design should be on a separate piece of paper.

William S. Hart will be shown tonight at the Princess in "The Money Corral," a new Artercraft picture. It takes a pretty good man to stand up before a brace of six shooters and not flinch, but this is proved when the star encounters some underworld crooks in Chicago and bests them at their own game. He also saves a trust company by preventing the theft of important proxies. The opening scenes are of a great range in the frontier town of Frisley Point, Montana. There takes place the wild riding and shooting, all the sports of the new country, a charming love story runs

FATHER AND SON ARE HURT IN AUTO MISHAP

John O'Neal of Connersville More Seriously Injured by Car Falling on his Chest

GASSED WHILE IN SERVICE

A serious automobile accident happened Sunday afternoon about two miles east of Glenwood on the Connersville pike, when the machine driven by William O'Neal of Connersville turned over and pinned the occupants under it. Mr. O'Neal was accompanied by his son, John, and they were on their way to Shelbyville.

It is still unaccountable to both of them how the thing happened but in about two seconds the car was wheels-up in a ditch at the roadside, the son pinioned under it and the father disentangling himself from the barbed wire fence. The son was the worse hurt as he had only been home from France a short time, where he was gassed, and the machine was pressing on his chest, which had not thoroughly healed from the mustard gas. The father suffered many bruises and cuts.

Both were taken to their home in Connersville, and the son is in a grave condition. The machine was a total wreck.

ten by Mr. Hart and Lambert Hillier, who also directed the production.

Jane Novak is leading woman. Herschell Mayall is the heavy: Winter Hall, Rhea Mitchell and Patricia Palmer are among the other players who will be seen in the picture.

It is said that for sheer thrill and the qualities of human interest, the triumph of right over evil, the perfection of scenic investiture, this picture is one of the most notable ever offered—starring—William S. Hart.

Tomorrow Theda Bara will be shown in "The Light," which is a typical picture of her acting, and has been termed as a "story of a wicked woman."

OLD HIGH SCHOOL TEACHERS EMPLOYED

R. J. Cullipher and A. H. Sutton, Who Left in 1917 to Enter Service, Will Return Here

IRVIN SHULTZ IS EMPLOYED

The Rushville school board has employed two teachers, who left their positions here in 1917 to enter the service, the return of whom will meet with popular approval because they were both competent instructors and were well liked by school patrons and high school students.

Supt. J. H. Scholl announced today that R. J. Cullipher would return as manual training instructor, succeeding John F. Sloan and A. H. Sutton as science instructor, succeeding Miss Kathryn Kintz. Mr. Cullipher, since being discharged from the service, has been running a vulcanizing shop at Minnie and Mr. Sutton is now teaching in the state normal school at Terre Haute.

The board has not found anyone to take the place of Glen Curtis, athletic coach, who recently notified the board he would not return after having signed a contract. Irvin Shultz, who assisted in coaching the championship Spiceland academy basketball team last year, has been employed to teach history and can help out with the coaching, but the board hopes to find some one to take charge of athletics. Mr. Shultz is taking a special course at Columbia university this summer.

FIRE DAMAGE \$100,000

Spontaneous Combustion Blamed For Evansville Loss Today

(By United Press.)
Evansville, Ind., July 1.—Spontaneous combustion resulted in the fire which destroyed the planing mill and lumber yards of Theodore Recklin today.

The loss was estimated at \$100,000, part of which is covered by insurance.

Only the walls of the building remained standing. The flames spread so rapidly that the building was practically destroyed before the firemen reached it.

ELKS LODGE WILL SEND A DELEGATE

Continued from Page One
Established system for raising money. One of the first checks given the Salvation Army was for \$60,000 for its work in France.

And now, the war over, the Elks are co-operating in the work of reconstruction. They have set aside \$50,000 to help Dr. C. A. Prosser, director of the federal board of vocational education, obtain nationwide publicity for his work in connection with the re-education of disabled soldiers, sailors and marines. The publicity is for the purpose of bringing these heroes into contact with Dr. Prosser. The Soldiers' Friend Committee, also an Elks' organization, is co-operating with Dr. Prosser to help the disabled soldiers, sailors and marines maintain their families during the period of education. The wounded men are to be taught trades that can be followed despite their wounds. The Elks have placed \$150,000 at the disposal of Dr. Prosser to assist the men during the period of training.

Still another \$50,000 will be lent to the men as their needs are disclosed. These loans are to be returned as soon as the government has completed its war risk settlements with the wounded men.

EARTHQUAKE DEATHS WILL BE INCREASED

With Resumption of Communication in Devastated Region, More Casualties Are Expected

ITALIAN VILLAGES ARE RAZED

(By United Press.)
Rome, July 1.—The earthquake which shook northern Italy Sunday, continued early today.

Scores of persons were dead and hundreds injured. With the resumption of communication, casualties will be increased. A number of villages were razed and the ruins searched.

Forty persons were dead at Vichio, which was almost wiped out. Mirland was also razed and a majority of the population is believed to be buried under the ruins. Heavy casualties are expected there.

The destruction was great at various cities, large numbers of persons being buried under the debris. Florence was among the cities reporting casualties.

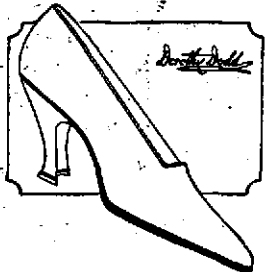

Only meagre news could be received today owing to the dislocation of communication facilities.

WHEAT STOCKS 3 TIMES AS LARGE

Commercial Stocks as Reported by
the Department of Agriculture
Amount to 51,392,898 Bu.

SUPPLY FIGURES COMPARED

Gives Summary of Figures Representing Stocks Reported to Departments June 1, 1919.

Commercial stocks of wheat reported in a survey made by the Department of Agriculture for June 1, 1919, amounted to 51,392,898 bushels. These holdings were reported by 8,681 firms, comprising elevators, warehouses, grain and flour mills, and wholesale dealers, and represented nearly three times the stocks held by the same firms on June 1, 1918, the actual percentage being 274.5 percent of the 1918 stocks. The figures refer to stocks actually reported and do not represent the total commercial stocks of the country nor do they include stocks on farms.

The commercial visible supply figures, as published by the Chicago Board of Trade for May 31, 1919, show 23,702,000 bushels of wheat, as against 1,146,000 a year earlier. The

corresponding Bradstreet figures show 27,626,000 bushels, as against 13,790,000 in 1918. Compared with the same date last year, these figures, as well as those obtained by the more extensive survey, show a very great relative increase in commercial stocks of wheat on June 1, 1919.

The commercial stocks of other cereals reported for June 1, 1919, according to the department's statement, were as follows: Corn, 17,254,576 bushels; oats, 14,170,543 bushels; barley, 20,043,375 bushels; rye, 11,624,331 bushels. These stocks represent the following percentages of the corresponding stocks on June 1, 1918: Corn, 47.6 per cent; oats, 90.6 per cent; barley, 207.2 per cent; rye 346.1 per cent.

The commercial stocks of flour and corn meal, as reported for the survey, were as follows: Wheat flour, white, 5,653,051 barrels; whole wheat and graham flour, 32,065 barrels; barley flour, 17,822 barrels; rye flour, 165,243 barrels; corn flour, 6,128,427 pounds; corn meal, 40,297,627 pounds; buckwheat flour, 20,351,650 pounds; mixed flour, 15,299,679 pounds. These stocks represent the following percentages of the stocks on hand a year ago: Wheat flour, white, 121.8 per cent; whole wheat and graham flour, 31 per cent; barley flour, 4.6 per cent; rye flour, 31.1 per cent; corn flour, 14.3 per cent; corn meal,

29.1 per cent; buckwheat flour, 329.8 per cent; mixed flour, 158.5 per cent.

Elevators, warehouses and wholesale dealers reported stocks of dry edible beans amounting to 5,291,350 bushels. While wholesale grocers and warehouses reported the following commodities in the quantities indicated: Cleaned rice, 90,013,887 pounds; rolled oats, 87,641,132 pounds; canned salmon, 110,202,642 pounds; canned tomatoes, 199,998,969 pounds; canned corn, 86,649,774 pounds; sugar, 225,345,574 pounds. These stocks represent the following percentages of the corresponding stocks on hand June 1, 1918: Beans, 96.5 per cent; rice, 93.1 per cent; rolled oats, 77.7 per cent; canned salmon, 120.1 per cent; canned tomatoes, 202.3 per cent; canned corn, 191.8 per cent; sugar, 95.4 per cent.

Camel Cigarettes

CAMEL cigarettes win smokers from the start because the expertly blended choice Turkish and choice Domestic tobaccos make possible Camel's delightful mellow-mildness with that all-there "body."

Camels meet your fondest cigarette fancies in so many ways. Their flavor is unusual and refreshing; and, they permit you to smoke as long as you will without any unpleasant cigarettey aftertaste or unpleasant cigarettey odor. They're simply a cigarette delight! That's the way you'll put it!

You'll find Camels good all the way through. It is a fact, you'll prefer Camels expert blend of choice Turkish and choice Domestic tobaccos to either kind of tobacco smoked straight! And, Camels may be smoked liberally without tiring your taste.

To know Camels best compare them in every possible test with any cigarette in the world at any price!

Camels are sold everywhere in scientifically sealed packages, or ten packages (200 cigarettes) in a glassine paper-covered carton. We strongly recommend this carton for the home or office supply or when you travel.

The American's Creed

I believe in the United States of America, as a government of the people, by the people, for the people; whose just powers are derived from the consent of the governed; a democracy in a republic; a sovereign nation of many sovereign states; a perfect union, one and inseparable; established upon those principles of freedom, equality, justice and humanity for which American patriots sacrificed their lives and fortunes.

I, therefore, believe it is my duty to my country to love it, to support its constitution, to obey its laws, to respect its flag, and to defend it against all enemies.

See the Asbestos Sweat

COME AND SEE WHY
COPPER-CLAD RANGES
DO NOT RUST OUT.

A section of a range body is heated and there on the iron body is sweat from the asbestos. Right before your eyes you see just exactly what happens every time you build a fire in your range. You see why the sheet of copper is used and what it does and how it does it. You take nobody's word—you see—you know—absolutely positively.

Copper-Clad means that a sheet of pure Copper is BETWEEN the sweaty asbestos and range body. To place it elsewhere would be like climbing on a roof to get out of the rain.

SAVE A THOUSAND SHOVELS OF COAL EVERY YEAR.

You know how the many walls and air spaces of a thermos bottle hold the heat. You know that a house with a single wall is not as warm as the house with two walls and an air space. You know that storm windows, two windows with a space between, are much warmer than a single window, even if it is as thick as the two windows.

The Copper-clad Range has four walls and an air space. See what it means in fuel saving.

"OH—YOU BEAUTY"

That's what comes to your mind every time you go in the kitchen and see the Copper-Clad Range. It is an inspiration, because the finest known example of the artificer's art in range making. It is a picture because so pleasing a statue ideal in proportions—a symphony because of the perfect performance.

Your Purse and Palate

BOTH MUST BE SATISFIED.

Acceptable food should possess acceptable prices. Don't buy eatables merely because of their cheapness, but rather because of their goodness.
